

“Feed Nature Fund” is also can established to support this kind of activities.

Characteristic of projects and activities:

The Camp organized by FEED’s professional team to raise awareness of nature conservation and how to live in harmony with nature for schoolchildren, university’ s student, and general juvenile.

– the Camp’s participant is up to 150 heads, it can be selected from green recruitment process , cooperation with schools, management’s families’ members, etc.

Project’s areas:

- Bangpu Nature Education Centre
- Nature and Agriculture Education centre
- National parks and other selected areas as appropriated.

Duration: 2 days, 3 days, or 4 days Camp

Budget (Baht): Approximately budget support is around 1,500 -2,500 baht/head

Note for Supporters and partners:

This is the direct support to the Camp organizer (FEED) and the selected youth to attend the Camp. The youth camp can be organized up to 10 camp a year, the supporter can even join the camp and all green activities as appropriated and the agreement between supporter and FEED. This is the great way to serve a huge numbers of participants in one camp.
